VOLUME CONTENTS

Number 1

S. M. Calisal and T. Sabuncu	1	A Generalized Method for the Calculation of Hydrodynamic Forces on Discontinuous Vertical Cylinders
J. L. K. Chan and S. M. Calisal	19	A Numerical Procedure for Time Domain Non-linear Surface Wave Calculations
A. S. Chitrapu, R. C. Ertekin and J. R. Paulling	33	Viscous Drift Forces in Regular and Irregular Waves
Pengfei Liu and N. Bose	57	Propulsive Performance of Three Naturally Occurring Oscillating Propeller Planforms
K. Subbiah, N. Jothi Shankar and Hin-Fatt Cheong	77	Wave Forces on a Large Horizontal Cylinder near a Plane Boundary

Number 2

K. J. Eidsvik and T. Utnes	97	Time-varying Turbulent Flows Over Bluff Bodies Predicted by Finite Volume Integration of Reynolds Equations
M. Gerber and L. Engelbrecht	113	The Bilinear Oscillator: the Response of an Articulated Mooring Tower Driven by Irregular Seas
S. K. Chakrabarti, D. C. Cotter and P. Palo	135	Shear Current Forces on a Submerged Cylinder
Hae-Hoon Park	163	A Tension Measurement Method of a Towing Cable or a Buoy Cable
Chung-Pan Lee and Jaw-Fang Lee	171	Wave-induced Surge Motion of a Tension Leg Structure
Technical Note *P. J. Rademakers*	187	Waverider–Wavestaff Comparison

Technical Note *D. R. Avalos, H. Larrondo and P. A. A. Laura*	195	Vibrations of a Simply Supported Plate Carrying an Elastically Mounted Concentrated Mass
Books Received	207	
News and Notices	211	

Number 3

A. N. Williams	215	Dual Floating Breakwaters
H. S. Choi and J. Y. K. Lou	233	Nonlinear Mooring Line Induced Slow Drift Motion of an ALP–Tanker
P. R. Payne	247	The Spray Sheets Produced During Vertical Wedge Impact and Steady Planing
Ching-Yun Yueh and Yi-Yu Kuo	263	The Study of Wave Pressure and Uplift Force on a Submerged Plate
S. Narasimha Rao and K. Mallikarjuna Rao	281	Behaviour of Rigid Piles in Marine Clays Under Lateral Cyclic Loading
B. P. Butler and G. P. Thomas	295	The Diffraction of Water Waves by an Array of Circular Cylinders in a Channel
S. Neelamani, B. H. Bharatkumar, R. Mahadevan and V. Sundar	313	Flume Confinement Effect on Wave-induced Dynamic Pressures on Twin-tandem Cylinders
Technical Note *I. Sahin and M. Hyman*	339	Numerical Calculation for the Flow of Submerged Bodies Under a Free Surface

Number 4

G. U. Müller and T. J. T. Whittaker	349	An Investigation of Breaking Wave Pressures on Inclined Walls
P. A. Madsen and O. R. Sørensen	359	Bound Waves and Triad Interactions in Shallow Water

Songping Zhu	389	Diffraction of Short-crested Waves Around a Circular Cylinder
S. Huang and D. Vassalos	409	A Semi-analytic Treatment of Three-dimensional Statics of Marine Cables
Technical Note *V. Anantha Subramanian and C. P. Vendhan*	421	An Efficient Algorithm for Strapdown Accelerometer-based Motion Measurement
Technical Note *Chih Wu*	433	Specific Power Analysis of Thermoelectric OTEC Plants
Technical Note *V. H. Cortinez and P. A. A. Laura*	443	Simple, Approximate Solution of Forced Vibrations Problems of Continuous Systems
Technical Note *P. Vethamony and J. S. Sastry*	449	Significance of Relative Velocity in the Estimation of Drag Force of a Tethered Spherical Float

Number 5

M. J. Tucker	459	Recommended Standard for Wave Data Sampling and Near-Real-Time Processing
T. Delmer and T. Stephens	475	Numerical Simulation of a Free-falling Oceanographic Vehicle
P. Boccotti, G. Barbaro, V. Fiamma, L. Mannino and A. Rotta	493	An Experiment at Sea on the Reflection of the Wind Waves
E. T. Huang and J. R. Paulling	509	Sea Loads on Large Buoyant Cargo During Ocean Transport
Books Received	529	
Announcement	531	

Number 6

C. A. Klentzman, R. E. Randall and W. P. Fife	533	Diver Breathing Gas Produced Through Cavitation in Sea Water
R. E. Randall, Jun Zhang and J. K. Longridge	541	Laser Doppler Anemometer Measurements of Irregular Water Wave Kinematics
D. P. O'Brien, M. J. Hinchey and D. B. Muggeridge	555	Recent Developments in Offshore Rig/Platform Evacuation
O. Gottlieb and S. C. S. Yim	569	Drag-induced Instabilities and Chaos in Mooring Systems
Books Received	601	
Volume 20 Title Section, Contents and Author Index	i
